

Mechanical Engineers

Learn CNC skills & Be industry ready.

It is a fact that most of the mechanical engineering students aspire to get employed in core manufacturing industries or its ancillaries. CNC programming skills are most sought after employable skills by the core manufacturing industries. This skill could set you apart from others. Moreover, manual CNC programming skills are also a part of your BE or Diploma course and you are required to pass in this subject.

Every year many students write to us seeking help on CNC programming and almost all of them request us for free license of our CNC program simulation software. Cadem responding to its student fans has decided to make its most popular software seeNC free, well almost.

Happy programming:)

How to buy seeNC online?

Step 1: Simply download and install **2 day free trials** in separate folders:

seeNC Turn: <http://ow.ly/zG5130fLsKw>
